COURSE DESCRIPTION

This course will focus on reviewing the facts, events, victims and perpetrators of the Holocaust in Germany and other parts of Europe during Hitler's Third Reich. It will cover the origins of the Holocaust, implementation, efforts to rescue victims and the efforts to bring the perpetrators to justice. The following questions, and others, will be discussed in the course: How could it have happened? Why would individuals destroy innocent men, women, and children just because of their religion/race? What other episodes of holocaust and genocide have occurred? Is it possible that history could repeat itself? This course invites students to look deeply at these troubling questions and issues by use of critical thinking and analysis.

COURSE OBJECTIVES

This course will provide students with the knowledge and skills to:

1. Demonstrate knowledge of the historical events that led up to the Holocaust.
2. Identify key figures in the period of the Holocaust and their role in this event.
3. Create a timeline of the sequence of steps that culminated in the Holocaust.
4. Analyze the personal experiences of individual Holocaust survivors and those involved in their rescue.
