

Wilmington College is a private, non-sectarian college which offers both undergraduate and graduate degree programs in a wide range of instructional areas. The College began with a charter class of 194 students in 1968 and has grown to serve a student body of approximately 10,000 students of diverse backgrounds.

The program of day, evening and weekend dasses serves traditional high school graduates as well as non-traditional adult students in need of flexible scheduling Classes are primarily offered in 15-week, 7-week, and weekend modular formats Introduced in 2005, FUSION programs combine online and face-to-face learning and also recognize prior college-level learning. These programs are designed for students who wish to complete their degree in less time than is possible with traditional courses.

Wilmington College's main campus is located near the city of Wilmington and historic New Castle, Delaware. The campus is easily accessible by air, rail, and bus. Our central location in the northeast corridor of the United States provides students convenient access to the major cities of New York, Philadelphia, and Washington D.C. Recreational areas such as beaches and ski resorts are within easy driving distance.

Additional sites include the Wilson Graduate Center; Dover Air Force Base; Dover; the William A. Carter Partnership Center in Georgetown, Delaware; and the College Information Center in Rehoboth Beach, Delaware

Wilmington College generally serves commuter students and does not provide student housing facilities. However, the College welcomes all qualified students and assists those needing living accommodations by providing a listing of nearby rental opportunities

h

The College Mission

Wilmington College is committed to excellence in teaching relevancy of the curriculum and individual attention to students. As an institution with admissions policies that provide access for all, it offers opportunity for higher education to students of varying ages, interests, and aspirations

The College provides a range of exemplary career-oriented undergraduate and graduate degree programs for a growing and diverse student population. It delivers these programs at locations and times convenient to students and at an affordable price. A highly qualified full-time faculty works dosely with part-time faculty drawn from the workplace to ensure that the College's programs prepare students to begin or continue their career; improve their competitiveness in the job market, and engage in lifelong learning.

A Message from the President

Wilmington College is committed to academic excellence in our classrooms, relevant programs in our curriculum, and caring personal attention to our students. One of our great strengthsistheenthusiastic, personal involvement of our trustees, administrators, faculty, staff, and alumni in creating a college community. Webelieve that the opportunity for higher education should be available to all who seek it, and we will continue to meet the ongoing challenges that higher education presents in the years ahead.

Our students are provided with the academic tools, practical skills, and "real world" opportunities necessary to advance as leaders in their professions and their communities. We encourage active participation in an education that challenges critical thinking provides career preparation, instills values, and inspires lifelong learning. We realize that each student is unique and, as a community, we strive to maximize that unique potential.

We look forward took ? e ° ! \$ chald

Accreditation

Wilmington College is accredited by the Commission on Higher Education of the Middle States Commission on Higher Education, a non-governmental, nationally recognized organization whose members comprise approximately 500 collegiate institutions The Middle States Commission on Higher Education accredits institutions of higher education in Delaware, the District of Columbia, Maryland, New Jersey, New York, Pennsylvania, Puerto Rico, the U.S. Virgin Islands, and other locations abroad.

Wilmington College seeks students who show promise of academic achievement. The College recognizes the effect of determination, motivation, and maturity on students performance and is eager to give students a chance to prove themselves

The College seeks a diversified student body and encourages applications from students with differing backgrounds, aptitudes and interests, including career-minded adults who wish to upgrade their skills or complete a degree program. Candidates must be graduates of an accredited high school or have successfully completed a General Educational Development (GED) program.

Application Procedures

An application packet may be obtained by mail, phone, or in person from the Admissions Office or at any of the site offices throughout the state. The application may also be requested via the Wilmington College home page address http://www.wilmcoll.edu Applicants need to comqú į Q

The Admissions Decision

The final decision is made after all application requirements have been met. The College uses a rolling admission system and applicants are generally notified of their status within two weeks of the receipt of all materials

Transfer Student Admission

Students wishing to transfer to Wilmington College are required to submit official copies of all previous college transcripts to the Admissions Office. Transcripts should be sent directly to the Wilmington College Admissions Office in a sealed envelope from the transfer institution bearing the seal of the institution's Registrar:

Wilmington College accepts for transfer a maximum of 75 hours towards a bachelor's degree and 30 hours towards an associate degree. Different contractual agreements apply at Dover Air Force Base. All credits must be from an accredited insti ner ge an acc !

Wilmington College Institutional Scholarships

As a result of gifts to the College, a limited number of scholarships are available to full-time students on the basis of academic achievement and the potential contribution of the student to the total life of the College. Scholarship awards vary.

A student must have a grade point average (GPA) of 3.25 or higher to qualify for consideration for an academic scholarship

Athletic Scholarships

Partial scholarships may be awarded to students who show exceptional athletic ability. The Athletic Director, the coaching staff of each sport, and the Director of Financial Aid determine the amount of scholarship. Recipients must be academically qualified and must conform to the NCAA requirements and conditions

Determination for Financial Aid

Those who desire financial assistance under the Federal Pell,

Academic Advising Services

The Office of Academic Advising offers all students support services regarding academic development. The Office provides academic advisement, schedule planning and transfer credit evaluation. Students in the Division of Education are also assigned a faculty advisor to complement Academic Advising and further explain the intricacies of the education requirements

College Library

The Wilmington College Library serves all students regardless of program site Located in the Robert C. and Dorothy M. Peoples Library Building on the New Castle campus the library holds a collection of over 191,000 volumes and subscribes to over 450 periodicals in print with Q o

Student Activities

Office of Student Affairs

Under the direction of the Vice President of Student Affairs the Office of Student Affairs is responsible for planning coordinating developing and implementing all student activities Student activities at Wilmington Collegeenhance the educational process

Wilmington College reserves the right to change curriculum and/or policies should an immediate need arise In those cases, all affected students will be informed.

Release of Student Information

In accordance with the Family Educational Rights and Privacy Act, students have the following rights

Right to inspect and review student's record

Students should submit a written request to the Registrar, indicating which records they wish to inspect. The College will make such records available within 45 days of the receipt of the request. Students do not have the right to inspect confidential letters and recommendations if the student has waived the right to inspect.

Right tosek anendments to records

Students should submit a written request to the Registrar, indicating which records they wish to have amended and the reasons. The College will notify the student in writing of the decision regarding amendment of the record.

Right to consent to disdoure

The College may disclose the following directory information unless the student or parent of a dependent student makes a written request to withhold information: name, address, telephone number; e-mail address, date and place of birth (only for official requests for group lists for legitimate agencies such as the US Air Force), major field of study, dates of attendance, grade level, enrollment status, GPA, participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors, awards, most recent educational agency attended. Written request for nondisclosure should be submitted to the Office of the Registrar.

Exceptions to student rights regarding disclosure

The College is authorized to disclose student information without consent in the following circumstances

- Information designated as "directory information"
- Disclosure to school officials with legitimate educational interests
- Disclosure to an alleged victim of a crime of violence
- Disclosure to officials of another institution where student seeks to enroll
- Request from Comptroller General of US, Secretary, or state/local educational authorities

- Disclosure in connection with financial aid for which student has applied
- Disclosure to accrediting agencies
- Disclosure to parents of dependent students
- To comply with judicial order or subpoena (reasonable attempt to notify must be made)
- Disclosure in connection with a health or safety emergency

Right tofilea complaint:

Students have a right to file a complaint concerning alleged failure of Wilmington College to comply with the requirements of the Family Educational Rights and Privacy Act. Complaints should be mailed to:

Family Policy Compliance Office

US Department of Education 400 Maryland Avenue, SW Washington, DC 29292-4605

Annual Notification to Students

Wilmington College is required to notify students annually of their rights regarding privacy. An ongoing message is inserted in each registration booklet, directing students to the following web address http://www.ilmcoll.edu/studentlife/privacy.html.

Academic Policies

Complete copies of Wilmington College academic policies are located in the Division and site offices. Admissions Office, and the Office of the Registrar and are available to any registered or prospective student upon request. These policies contain detailed explanations of academic probation, Dean's List, transfer credit policy, etc., as well as definitions for terms used in the maintenance of a student's academic record. Some frequently used policies are outlined below.

Change of Policy

Wilmington College reserves the right to change or adjust its academic policies, tuition, fees, payment plan procedures, academic calendar and to cancel or add courses at any time.

College and Academic Calendar Year

The academic year is divided into three semesters, six accelerated sessions (blocks), and weekend modules

Course Numbering System

Courses at Wilmington College are identified and numbered to reflect the level of academic expectation for a particular course. They include

Undergraduate Courses

000-099	Non-credit courses
100-199	Lower division courses
200-299	Lower division courses
300-399	Upper division courses
400-499	Upper division courses

Graduate Courses

5100-5600	Non-credit prerequisite courses
6100-8999	Master's level courses
7100-9100	Doctoral (Ed.D.) courses

CourseLoad

Twelve credit hours per semester constitute a full-time undergraduate course load. A course load in excess of 19 credit hours per semester requires approval of the Division Chair or Program Coordinator: Students wishing to carry excess course loads, as defined above, must also have a cumulative grade point average of 3.0 or higher: Students who are denied approval to take a course load in excess of 19 credits per semester may appeal in writing to the Vice President for Academic Affairs f%

0

urrr

f% o

.

Directed Study

Directed study is available only under extenuating circumstances for students who are approved by their program division chair. A minimum 2.5 cumulative grade point average is required to be eligible for directed study.

Credits through Examination

Air Force and Army ROTC

Wilmington College has a cross-enrollment agreement program with the Air Force and Army ROTC Departments of the University of Delaware. Students who are interested in pursuing such a program can obtain information on ROTC courses from the Wilmington College Academic Advising Office.

Library Orientation

A basic library orientation project is required of all new

reinstated on a probationary status by presenting and receiving approval of a written appeal to the Academic Review Committee chairperson.

Students receiving Title IV financial aid funds, state grants, and forms of scholarship offered by Wilmington College must make academic progress as defined by the institutional criteria for maintaining satisfactory academic progress. The Director of Financial Aid reserves the right to make decisions concerning the student's circumstances. Students receiving financial aid who are placed on academic probation must schedule a meeting with the Director before aid will be offered the following semester: Students who do not schedule a meeting will automatically forfeit their financial aid package.

Any student who receives an institutional scholarship or tuition assistance from Wilmington College is required to maintain a 2.0 grade point average each semester. Failure to do so will result in the withdrawal of the institutional award from the student's account for the following semester:

Deanis List

Dean's List honors are awarded to full-time students who complete at least 12 credit hours with no failures and earn a minimum grade point average of 3.5 for the semester. Part-time students are eligible for Dean's List honors upon completion of at least 12 credit hours in two consecutive semesters with no failures and a minimum grade point average of 3.5 for the two consecutive semesters

Delta Epsilon Rho

All students who achieve the honor of being placed on the Dean's List for three consecutive semesters shall be designated by the Vice President for Academic Affairs as being eligible for induction into the Delta Epsilon Rho Honor Society.

Graduation

Students must satisfy degree and course requirements as outlined in the catalog in effect at the time of initial enrollment at the College as a degree candidate. Once students interrupt their program for one year or more, it will be necessary to satisfy the degree requirements as outlined in the College catalog or published curriculum in effect during the time following the student's readmission as a degree candidate.

Students planning to graduate in January must complete their academic program requirements by the end of the fall semester; program requirements must be completed by the end of the spring semester for those wishing to graduate in May. Students file the Registration for Graduation form with the Office of the!

egi

i

Student Writing and Math Skills

The College has adopted a policy intended to identify students who have writing and/or math deficiencies that may impair their ability to progress through their course of study.

- New College students complete the English and math placement analyses. If they meet the standard for each subject, they may enroll in ENG 101 or the first level math required by the student's degree curriculum. If they do not meet the standard, they will be expected to complete ENG 110, English Essentials, and/or MAT 110, Math Essentials For students needing academic preparation at a more basic level, zero credit courses in both English and math are available (i.e. ENG 095 and MAT 095).
- 2. Once students reach junior status, a writing assessment is administered during a course assignment. If the College standard is not met, the student will be advised to complete ENG 365, Academic Writing

Graduation with Honors

Graduation honors are awarded to students in a bachelor's degree program whose cumulative grade point average (GPA) at the time of graduation ranks within the top 25% of that student's academic division. A student must complete Wilmington College residency requirements in order to be considered for honors A maximum of 15 credit hours of challenge by exam and/or competency-based evaluation credit can be applied toward the residency requirement.

Specific honors are based upon the GPA distribution (computed to three decimal places) within each academic division.

SummaCumLaude	highest 5%
MagnaCumLaude	next 8%
CumLaude	next 12%

NOTE: The above policy is effective for students graduating on or after August 2004.

Academic Awards

Academic awards are given to students completing requirements for an undergraduate degree. These awards are described below.

Division of Behavioral Science Award

The Division of Behavioral Science Award is given to a bachelor's degree recipient who has a distinguished academic record, has displayed high standards of scholarship, and has demonstrated excellence in his/her field of study.

Division of Business Award

The Division of Business Award is given to a graduating student completing the requirements for a baccalaureate degree in a business major. The student must have a distinguished academic record and must demonstrate excellence in fulfilling the goals of his/her program of study.

Division of Education Award

The Division of Education Award is given to an undergraduate degree recipient in education. The recipient must have achieved distinguished academic standing and must demonstrate a strong commitment to the education profession.

Division of General Studies Award

The Division of General Studies Award is given to an undergraduatedegree recipient from the General Studies Division. The award is granted to a student with a distinguished academic record who has demonstrated excellence in achieving the goals of his/her respective academic program.

Division of Information Technology and Advanced Communications Award

The Division of Information Technology and Advanced Communications Award is given to an undergraduate degree recipient from the iTAC Division. The student must have a distinguished academic record and must demonstrate excellence in one or more fields of information technology, communications

o\$loy

Requirements for the Associate Degree

Students must fulfill the following requirements in order to be eligible for graduation with an associate degree:

- a Complete course requirements in the major field of study, including the General Studies core.
- b. Complete 30 credit hours of residency at Wilmington
 College. Residency credit may include 15 credit hours of
 challenge by exam and/or competency-based evaluation.
- c. Achieve an overall cumulative grade point average of at least 2.0.
- d. Achieve a cumulative grade point average of at least 2.0 in the major field of study.
- e Demonstrate competence in verbal and written communications and computational skills

reduced and a significant portion of the learning activities have been moved online Instructors redesign some lecture or lab that is normally taught in the dassroom into online learning activities such as case studies, tutorials, self-testing exercises, simulations, and online group collaborations/discussions. The unique features of online discussion boards used in hybrid courses allow all students to participate and learn from discussions.

Students will be given the opportunity to interact with professionals in the field and each other; to understand the critical relationship between people and organizations, to apply vital social and psychological behavioral skills, to work toward solving organizational problems, and to develop the leadership skills necessary to accomplish their goals within prevailing professional and ethical standards

ProgramCompetencies

Graduates of the Organizational Dynamics degree program are expected to meet the following competencies through the attainment of the specific course objectives

- 1. Exercise effective critical thinking and decision making skills in an organizational environment.
- 2. Demonstrate an awareness of self in relationship to others, including effective interpersonal communication skills, ability to work in teams, and respect for diversity and multiculturalism in a pluralistic society.
- 3 Demonstrate effective written and oral communication skills in the organizational setting
- 4. Recognize the principles and behaviors associated with effective leadership, motivation, and performance skills in organizational systems

Philosophy

The philosophy of the Business Division is based on the belief that members of an organization must clearly understand an organization's vision and mission and participate in the production of high quality goods and services. Toward that end, the business faculty is committed to providing an academic environment that leads to the development of a proactive approach to meeting the challenges of an organization in a constantly changing global community.

Sigma Beta Delta

Graduating business students who rank in the upper 20 per cent of their class will be invited to join Sigma Beta Delta, a national honor society. Sigma Beta Delta is founded on the principles of wisdom, honor, and the pursuit of meaningful aspirations. The society recognizes these qualities as being important to success in the academic realm as well as providing guidelines which will lead to a fulfilling personal and professional life.

Major Field Examination

Business students are required to complete a major field assessment during their capstone course, BBM 402, Strategic Management. This examination assesses the basic knowledge and understanding gained in the core undergraduate business curriculum Results of the major field assessment are a factor in determining the student's BBM 402 course grade

Professional Aeronautics Track

Purpose

The Bachelor of Science degree program in Professional Aeronautics offers students with professional or military aviation backgrounds the opportunity to earn college credit for their experience. The program includes practical and theoretical training in the fields of business and aviation management, giving the student the necessary knowledge and skills to compete successfully in the aviation industry.

Program of Study

The program is offered at the New Castle and Dover Air Force Base sites of Wilmington College, however, the four aviation core courses are only offered at the Dover Air Force Base site To qualify for the program, prospective or incoming students must be able to transfer in at least 18 aviation technology credits These are credits awarded for FAA certifications/licenses (pilot, A&P, etc) or for documented military experience and technical training (as evidenced on a military transcript). Examples of qualifying military career fields include aircraft maintenance, air traffic control, loadmaster; flight engineer; and meteorologist. In addition, the General Studies core courses, required of all Wilmington College undergraduates, provide a well-rounded academic foundation.

ProgramCompetencies

In addition to the Business Management competencies, students will be able to:

- 1. Apply critical thinking strategies to analyze how competition and government influence affect the aviation industry.
- 2. Develop a strong safety consciousness in all facets of aviation.
- 3 Synthesize knowledge from Business Management courses and Aviation Management courses

ORGANIZATIONAL MANAGEMENT

This FUSION program combines online and face to face learning and also recognizes prior college level learning. The program is designed for students who wish to complete their degree in less time than is possible with traditional courses.

Purpose

The Bachelor of Science in Organizational Management (BSOM) is a unique degree completion program designed to meet the educational needs of working adults with some college credits from accredited institutions or from work or military experience. The program is conducted in a condensed timeframe with an instructional schedule tailored to accommodate busy lifestyles. The program will help students develop the relevant skills needed to manage organizations in today's job market. Students will develop strong communication and leadership skills and develop an ethical approach to business and life

Program of Study

The BSOM core courses will be conducted in an accelerated format with asequence of three-credit courses each completed over afive-week period. Most BSOM core courses are in the "hybrid" format with 20 hours of classroom instruction and at least 20 hours of online instruction. Students admitted to the program will typically have completed at least 48 credit hours of college credits from accredited institutions. Prior Learning Assessment, CLEP, DANTES, military experience, or prior work experience in an organization. Exceptions may be made in special cases

The program courses are offered in a logical sequence and cover most major aspects of organizational management. The program starts with emphasis on organizational behavior; communications ethics, and human resource management skills and the information systems necessary to coordinate the management of these functions. The sequence continues with emphasis on the management skills needed for marketing finance, global business challenges, and operations and project management. The program concludes with gaining an understanding of current business situations and problems and the completion of student projects designed to develop the skills necessary to identify, analyze and make recommendations to solve organizational problems

ProgramCompetencies

Each graduating student will be able to:

- 1. Apply general management theories, principles, processes and skills to a variety of organizational situations
- 2. Be able to apply the use of financial and budget procedures and tools used to ensure organizational success
- 3 Demonstrate an understanding of how technologenun inú

English6 credits

SPORTS MANAGEMENT

Purpose

The Bachelor of Science degree program in Sports Management provides students with the knowledge and practical experience necessary for a career in sports management. Upon completion of the program, students will be able to seek employment in a variety of organizations, including professional sports organizations, collegiate sports, business, and non-profit organizations

Program of Study

Students receive a broad-based, personalized education in sports management. The program, which integrates theory with practical internship requirements, develops students for the opportunities available in sports management.

In addition to the sportsmanagement curriculum, the program includes a strong business management component, providing students with the skills necessary to succeed in the corporate areas of this field. The degree program offers students a variety of hands on experiences which enhance their opportunities for career choices Also, the General Studies core courses, required of all Wilmington College undergraduates, provide a well-rounded academic foundation.

ProgramCompetencies

Upon completion of the Sports Management program, the graduate will be able to:

- 1. Demonstrate an understanding of the different individual and team skills that are necessary to be an effective manager in the sports industry.
- 2. Demonstrate an understanding of strategic planning in budgeting marketing and promotions in athletics at the college and professional levels and in public and recreational

throughout the program Classroom management and assessment strategies are studied in separate courses and are also integrated into courses and fieldwork. The program requires an internship in an approved setting Most course work requires supervised fieldwork in settings such as childcare facilities, preschools, or kindergartens A minimum of sixty (60) total credits is required for degree completion.

ProgramCompetencies

- 1. Citeate lean angle experiences that make complexit meaningful to students and reflect an understanding of the core concepts and structure of education.
- 2. Provide learning opportunities that that % uctm

а

- 10. Collaborate with colleagues, parents/guardians, and other members of the community to support student learning and well-being and demonstrate knowledge of the role of the school in the community.
- 11. Use educational technology as an instructional and management tool.
- 12. Understand and maintain standards of professional conduct guided by legal and ethical principles
- 13 Exhibit enthusiasm, vigor, strength of inner self, humor, fairness, and concern for students
- 14. Obtain and retain successful employment in the profession of education.

Outcomes Assessment

Assessment of knowledge components and performance competencies is accomplished through satisfactory attainment of specific course objectives successful completion of assignments linked to program competencies and graduation competencies practicum evaluations from advisors and mentors, student teaching evaluations from dinical advisors, supervising teachers, and mentors, the completion and presentation of a professional portfolio; and post-graduation surveys

Clinical Requirements

Applicants for student teaching must meet required application procedures and deadlines Applications for student teaching must be submitted to the Office of Clinical Studies on the New Castle campus by October 15 for spring semester placements or by April 1 for fall semester placements Applications for student teaching are available at all sites in all advising offices and may be downloaded from the Wilmington College website Applications for student teaching do not replace the need to register for each course Registration and payment of all fees including laboratory fees for student teaching are still necessary.

- 1. A cumulative GPA of 2.5 is required before receiving a student teaching placement (ECE 450 or EDU 451).
- 2. A portfolio documenting achievement of program competencies is required for graduation.

PRAXIS I: PPST Requirements

Career and Technical Education

Purpose

The purpose of the Bachelor of Science in Education in Career and Technical Education is to provide professional development and certification opportunities for career and technical teachers who are currently working in vocational-technical high schools The program is designed for adults who seek certification as career and technical education teachers (currently T & I). A student must also satisfactorily document at least six (6) years of full-time work experience/training in his/her particular career area to be considered for Delaware T & I certification. The courses in the program will provide vocational teachers with the necessary skills to be successful in the dassroom. Students will learn methods to successfully communicate the content and skills of their craft as well as to develop effective teaching strategies to ensure that students are receiving the best instruction possible while increasing student achievement.

Program of Study

The courses available in the Bachelor of Science program in Career and Technical Education combine rich and varied course offerings that include core courses and education courses for education majors as well as specific education courses tailored to career and technical program teachers

Praxis I: PPST Requirements

Students must satisfy Delaware's PRAXIS I:PPST testing requirements prior to completion of their sixth year of teaching in a T & I program and prior to completing the necessary requirements for the degree.

GENERAL STUDIES Associate of Arts

Program Philosophy and Objectives

This two-year program is intended for those students who wish to gain a broad background in liberal studies. The program is specifically designed to meet the needs of undecided students by exposing them to several areas of study and still allow them to specialize later without loss of credit. Students beginning and/or completing this degree may continue on to, or change into, any of the four-year degree programs offered at Wilmington College.

Program of Study

The Associate of Arts degree program in General Studies includes courses in English composition, social studies, mathematics, science, and the humanities. In addition, with approval from the Division Chair, a student may structure a core specialization, consisting of 18 credit hours, in a related area of interest.

Sixty total credit hours are required for degree completion.

GENERAL STUDIES Bachelor of Science

Program Philosophy and Objectives

This baccalaureate degree is designed for transfer students This is an ideal program for those who have taken courses at several schools as the result of career or family relocations and nowneed to change their academic focus and complete a degree. Students must transfer into Wilmington College aminimum of 30 college credits and must complete at least 45 credits at the College to obtain a bachelor's degree requiring a minimum of 120 credits Students who successfully complete the Associate of Arts degree program in General Studies at Wilmington College may enroll in this program

All general College policies concerning the requirements for a bachelor's degree relate to this program. Students entering the program are required to obtain the approval of the academic advisor.

Goal-Directed Track

Recognizing that existing academic programs may not meet the unique needs of some students, a goal- directed track allows students, with appropriate approval, to design a program of study from existing courses which is academically valid and meets their particular goals

For approval, students and their acaQ s

- 11. Demonstrate knowledge of the natural sciences
- 12 Demonstrate an understanding of basic economic principles
- 13 Describe how past and current world events influence contemporary society.

Curriculum

The program design consists of two parts 20 general education "core" required courses and 20 elective courses. The "core" courses provide a well-rounded academic foundation, the elective courses may be selected to meet individual student goals

LEGAL STUDIES Bachelor of Science

Purpose

The Bachelor of Science degree In Legal Studies offers a balanced education with an emphasis in the law It provides sound preparation for students aspiring to further study in law or for those wishing to enter the legal field as a paralegal or legal assistant. Additionally, students will gain a solid foundation for careers in other areas including government, human resources and banking

Program of Study

The program emphasizes the knowledge, skills, and values needed to become competent and ethical professionals working in the legal services industry. The General Studies core courses, which are required of all Wilmington College students, provide a well-rounded academic foundation that emphasizes analytical thinking reading comprehension, and communication skills. In addition, students receive direct instruction in legal research and writing legal concepts and terminology, and the practical skills needed to successfully enter the job market. Furthermore, an emphasis is placed on providing students the opportunity to develop strong interpersonal skills, self-discipline, and ethical principles. This curriculum is designed to meet the guidelines of the American Bar Association.

ProgramCompetencies

Upon graduation, students will be able to:

- 1. Demonstrate proficiency in computerized and manual legal research techniques
- 2 Demonstrate proficiency in legal analysis and writing
- 3 Demonstrate knowledge of effective interviewing and fact finding techniques
- 4. Demonstrate an understanding of law office management and technology.
- 5. Demonstrate personal skills in organization, time management, and prioritization.
- 6. Demonstrate an undllar tr! n \$ undstanl mar

received from established professionals in the fields, there is also considerable agreement. To establish oneself in this competitive world, the ability to "sell" oneself, to be adaptive and work well in teams, to demonstrate a creative flair; and to be visually aware and technically competent, are all important and allied attributes. The importance of these personal design and communication skills and of the knowledge, skills, and abilities associated with emerging technologies and information resources is reflected in the various programs through emphasis on "core skills", all of which are fully integrated into the practical, hands on assignments associated with iTAC.

The Program of Study

All Information Technology and Advanced Communications programs observe a rigorous academic regimen involving core areas of study. The Information Resource Management (IRM) degree closely follows the guidelines as created by a joint effort between ACM (Association of Computing Machinery), AIS (Association of Information Systems), and AITP (Association of Information Technology Professionals). Both the managerial and technical concentrations consist of a total of 120 credit hours Each includes a Business and Management Core of 27 credit hours 6 credit hours of Technical Support, and a General Studiescore of 39 credit hours to provide a well-rounded academic program Themanagerial concentration consists of 30 core credit hours in Information Resource Management (IRM) plus 18 credit hours of free electives, while the technical concentration consists of 36 core credit hours of Software Systems Development (SSD) courses and 12 credit hours of free electives

The design-oriented programs of study use the Associate of Media Art & Design degree as their core for the freshman and sophomore years. The associate degree is comprised of a General Studies core of ten courses (30 credit hours) and a Media Design and Technology core of nine courses (27 credit hours). An elective (3 credit hours) from one of the four-year programs allows the students an opportunity to sample one of these specialized courses and to complete the associate degree (60 credit hours).

Each four-year degree program involving a design-emphasis continues with three more General Studies courses (9 credit hours) plus 14 courses (42 credit hours) of specialized core and an additional three courses (9 credit hours) of directed electives These courses, in combination with the associate degree requirements of the first two years, complete the 120 credit hours required for the four-year degree. An internship is also included in all four-year programs to give students a chance for on-the-job experience in their major field of study.

The General Studies core provides a foundation in English,

INTERACTIVE MULTIMEDIA DESIGN & COMMUNICATION

Bachelor of Science

Purpose

Interactivemultimedia, an exciting field of integrated electronic design, has exploded into education, business and entertainment markets over the past few years. This rapid development has led to the creation of many employment opportunities. Students will become proficient in planning and scripting story boarding digital capture; and editing of audio, video, and still images. They will also gain an understanding of the theory of intuitive interface design. Content includes Video, Non Linear Editing Photography, Desktop Publishing. Digital Imaging Manipulation, Graphic Design, Digital Sound, Typography, Animation, Video and Audio Production, and Media Design Theory.

INTERNET AND NETWORKING DESIGN & TECHNOLOGY

Bachelor of Science

Purpose

Today most organizations have an internal computer network or a presence on the Internet. This field has expanded tremendously and the opportunities for graduates in these areas are unlimited. Job applicants who are conversant in technical language and who simultaneously offer good design skills should easily find employment. Such opportunities will only increase as the explosion in global communication, networking and the Internet continues to grow to meet worldwide demand.

The exciting world of networking and the Internet needs creative, technical managers, resourceful people, confident with technology, who are able to operate at the middle management level. The Internet and Networking Design and Technology program will provide students with the necessary skills, theory, and practice for entry-level positions in this demanding and fascinating field.

RN TO BSN PROGRAM

Purpose

Registered nurses who have completed basic nursing education with either a nursing diploma or an associate degree have the opportunity to continue their education at Wilmington College and earn a Bachelor of Science in Nursing (BSN) degree. The pur $0 \quad ^{\mathrm{TM}} e N$

Accreditation

The BSN and MSN programs are accredited by the National League for Nursing Accrediting Commission (NLNAC). The BSN program first earned accreditation in 1988. The MSN program earned initial accreditation in 1996. Both programs conducted site visits in 2001 and earned accreditation for eight years from the NLNAC.

NLNAC

61 Broadway - 33rd Floor New York City, NY 10006 Phone: 212-363-5555

The BSN and MSN programs hold approval from the Commission on Collegiate Nursing Education, an agency recently approved to accredit baccalaureate and master's nursing programs. The first site visit for the programs at Wilmington College was completed in spring 2001. Full accreditation for 10 years was granted in fall 2001.

Cumalum

The number of transfer credits granted to entering RN students varies depending on basic nursing preparation. Therefore, a single plan of study cannot be prescribed. Students are encouraged to discuss their plan with their academic advisor or with nursing faculty members at their site.

ProgramCompetencies

At the completion of the BSN program, graduating students will:

- 1. Use critical thinking as a basis for identifying health-related needs of individuals, families, and communities
- 2. Synthesize knowledge from the humanities and physical, behavioral, and nursing sciences to provide nursing care to cc

A minimum of twelve credits in anatomy & physiology, microbiology, and chemistry must be earned through course work, transfer credit, or testing (available for anatomy/physiology and microbiology).

Program of Study

Students are urged to seek advisement in planning course sequence. The program of study will vary depending on transfer credits, part-time or full-time status, and credit earned in alternative ways

BSN/MSN Accelerated Option

The purpose of this option is to offer eligible BSN students the opportunity to take approx followelected MISN courses in lieu of undergraduate courses A BSN degree is earned at the completion of 120 credits. Courses taken at the graduate level will fulfill requirements for both programs.

Cumiculum

The number of transfer credits granted to entering RN students varies depending on basic nursing preparation. Therefore, a single plan of study cannot be prescribed. Students are encouraged to discuss their plan with their academic advisor or with nursing faculty members at their site.

ProgramCompetencies

Through the completion of the Accelerated RN to Bachelor of Science in Nursing program, graduates will:

- 1. Use critical thinking as a basis for identifying health related needs of individuals, families, and communities
- 2. Synthesize knowledge from the humanities and physical, behavioral, and nursing sciences to provide nursing care to clients across the life span in a variety of health care settings
- 3 Incorporate theoretical perspectives into nursing practice.
- 4. Demonstrate skill and commitment into the role of teacher:
- 5. Apply research findings to nursing practice
- 6. Provide leadership for the continuing development of the nursing profession.
- 7. Integrate ethical, legal, and economic accountability into professional nursing practice
- 8 Participate in designing nursing roles to meet societal and community health care needs
- 9. Demonstrate commitment to self-directed, lifelong learning to promote personal and professional development.
- 10. Demonstrate effective oral and written communication.

Nursing Admission

General Requirements

Students are admitted to the College and to the Division of Nursing without regard to race, age, creed, sex, or national origin. Registered nurses are considered transfer students to Wilmington College and are required to submit an official transcript from their school of nursing and all colleges attended. Transcripts should be sent directly from the previously attended institution to the Office of Admissions Additional lower-level academic credits can be earned through CLEP examinations for a variety of general education courses and through achievement tests for microbiology and anatomy/physiology.

ProgramPolicies

- 1. Registered nurse applicants should list their RN license number on the Wilmington College application form.
- 2. Students are required by state law to complete the Wilmington College Health History form, which includes a record of immunizations
- 3 Students are responsible for following all Division policies and procedures, which are distributed in NUR 303
- 4. The Division of Nursing sets a required minimum grade of "C-" for all nursing core courses
- 5. Students are required to submit appropriate documentation in dinical courses

Intenship in Business Management

This course provides the student experience in his/her chosen field of study. Through this experience, the student gains a practical understanding of work in the industry, experience on the job, enhancement of skills learned in the classroom, and contacts with professionals in the business world. Students may work on either a full-time or part-time basis for a 14-week semester. Students must have completed a minimum 60 credits, a minimum of 12 credits in the business core, and have a minimum GPA of 2.5. This course is graded pass/fail.

BUSINESS FINANCIAL MANAGEMENT

BFM 300

Fundamentals of Finance for Managers

This course surveys fundamental topics in finance, including the understanding and analysis of financial information, financing the business, budgeting and decision making for improved profitability. (Available only for the Organizational Management major)

BCS 095

Macintosh Seminar

This introductory session will introduce students to the Macintosh computers that are used for design-oriented courses in the iTAC Division. Comparison to PCs running Windows will be covered Particular emphasis will be given to the Macintosh operating system OS X, and how files are saved and shared in a networked environment. Participants are expected to be familiar with the Windows 9x/XP operating system for PCs

BCS 205 Personal Computer Operations I

This course is a basic introduction to computer hardware and software, with major emphasis placed on computer utilization. It is a hands on course, using Windows compatible personal computers Students are introduced to some historical aspects of computerization as well as the current environment. Students use word processing presentations and spreadsheet software.

BCS 206

Computer Applications for Business

This course provides a hands-on introduction to personal computers and their use in meeting a wide variety of business needs. It explains how to use a computer; the care and handling of storage media, and the use of peripheral devices. It emphasizes the use of Windows based operating systems and Microsoft Officebased word processing presentation, and spreadsheet software

BCS 210

Computer Science

This course introduces both the theory and application of modern day computing and how market forces have influenced developments. It compares the Macintosh platform with the PC platform and looks at file preparations, file management, storage and retrieval on both. Particular emphasis is placed on the role of the Macintosh platform in the design world, so students are prepared for courses in the iTAC Division, where the main tool is the Macintosh platform running applications such as Desktop publishing digital image manipulation, web page design, and video editing software.

ECE 450Student Teaching is designed for Elementary K-6/Middle Level 6-8 majors This supervised field experience requires at least 60 full student teaching days Student teachers are placed with individual mentor teachers or with teams of supervising teachers in approved dinical settings Student teachers are monitored and supported by Wilmington College supervisors Placement priority is given to settings that serve culturally, linguistically, and socioeconomically diverse student populations

A minimum of 15 dock hours is scheduled by the Wilmington College supervisors to address professional issues related to the dinical semester and to provide support and assistance with the completion of the required professional portfolio. EDU 451 is graded Satisfactory/Unsatisfactory. *Prerequisites* approved application from the Office of Clinical Studies; application must be received by October 15 for spring student teaching and by April 1 for fall student teaching GPA of 2.5; EDU 392, EDU 402, EDU 403, EDU 404, EDU 405 for K-6; EDU 407, EDU 408, EDU 409, EDU 410 for 6-8, and appropriate PRAXIS II exam Student teaching must be taken in conjunction with EDU 499, Clinical Assessment in the Classroom

EDU 460-462 Topics in Education

This course is an intensive study of contemporary topics and issues in education. *Prerequisite* Approval of Division Chair.

EDU 499

Clinical Assessment in the Classroom

Clinical assessment addresses contemporary issues and practices in the field of assessment. The course will focus on developing competence in assessing student work in an educational setting The collection, analysis, and interpretation of immediate, real-time information for making data-driven decisions about teaching and learning will be emphasized. Related topics such as conferencing techniques, reporting systems, analyzing student work, applying rubrics, and continuous assessment techniques will be discussed in the course. (This course must be taken in conjunction with student teaching.)

ENGLISH

ENG 095 English Review

This course provides a review of English grammar skills for students who need to strengthen their backgrounds in English before taking college-level courses requiring college-level reading and writing It establishes a foundation for success in subsequent college-level English courses. English Review would benefit students returning to the classroom after a long absence who wish to increase their communication skills before enrolling in credit courses. In addition, students speaking English as their second language would improve verbal and written fluency. Topics covered will include sentence structure, subject-verb agreement, punctuation, verb tenses, spelling, and paragraph writing.

3 credits

Ocredits

ENG 101 English Composition I

This course is designed to help students become more proficient and effective writers Students will study the principles and skills involved in effective writing and reading and will be required to apply these skills to selected writing assignments throughout the course. They will also study elements that constitute various rhetorical patterns of writing and develop skills in writing essays in these patterns. The rhetorical patterns studied in this course are description, narration, compare/contrast, definition, and dassification/division. Students will also be introduced to the

3 credits

United States History II

This course covers the cultural, economic, political, and social developments in the United States from Reconstruction to the present time.

HIS 204

HIS 202

World History

This course is a study of the major cultural, economic, military, political, religious, and social events in western history from antiquity to the Scientific Revolution. Particular attention is given to the Western societies' contacts with the peoples of Africa, the Americas, and Asia

HIS 230

History of Art and Design

This course studies artistic trends and how developing technologies have influenced creative work through 19th and 20th century Europe and America. The course focuses on the relationship between design and art and also on the artist's role and influence on western culture and society.

HIS 300 Geography and Man

This course will focus on the interaction of people with their environment to produce a unique place to live, both from an economic and cultural perspective. Students will develop the ability to read maps, use an atlas to learn location and characteristics of major regions and subregions of the world, and examine the effects of contemporary communication and transportation technologies on the global economy and the interconnection of the people of thisearth. An overview of human geography (study of environment, population, resources and technology, the human impact on natural systems of air, water; and land), political geography (relevance of geographic conditions fundamental to the world's resources), and urban geography (land use) is included.

Staffing Organizations

This course provides students with the skills and knowledge to make effective staffing decisions Topics include job analysis recruitment, writing effective advertising copy, selection (including interviewing techniques), orientation and voluntary and involuntary terminations Emphasis is on the ethical and legal considerations involved in staffing decisions *Preequisites* BBM 201, ENG 101

HRM 310			3 credits
Organizational Develop	ment		
This course studies the ur	dQ	t	r Qs,

The Holocaust

The focus of this course is to review the facts and attempt to answer the soul-searching questions of the Holocaust in order to provide an interpretation of the past that can help shape the present and the future. How could it have happened? How could a modern state destroy innocent men, women, and children just because of their religion/race? Why did so many people allow themselves to be killed? How could the modern world let this mass execution take place? Can and will history repeat itself? There are no easy answers to these questions, but this course invites students to look deeply at these troubling issues

HIS 360

3 area lits

Human World Views 350 BC-1650 AD

Thiscourse will focus on specific time periods, events and historical questions of western/non-western cultures. It incorporates a wide variety of political, social, economic, religious, intellectual, and scientific issues that encompass and define the study of the Humanities, as we are confronted with basic questions regarding historical development, cultural traditions, human nature, moral action, and practical necessity.

HIS 361

3 credits

Human World Views 1650 AD-Present

The primary way to understand the past and to appreciate the present isthrough an examination of the literature, art, philosophy, and history of the generations. Each piece of these disciplines is juxtaposed against the tapestry of history and culture so that it can be viewed within the content of its time.

HIS 361 is a continuation of HIS 360 and will cover the time from 1650 A.D. to the present, emphasizing prevailing world views *Prerequisite* ENG 102

HUMAN RESOURCE MANAGEMENT

HRM 300

3 credits

Labor Relations and Collective Bargaining

Bargaining relationships, collective bargaining content, and the use of mediation are discussed in this course. Arbitration and other approaches to conflict resolution are considered. *Prerequisites* BBM 201, ENG 101

HRM 340 The Adult Learner

The purpose of this course is to provide learners with a broad understanding of the theoretical base and principles of adult learning the methods of adult education, and the role of the teacher in facilitating effective learning. The course examines the adult as a unique learner and the implications of the knowledge of adult development on the instructional process. *Prerequisites* BBM 201, ENG 101

HRM 350

3 credits

International HRM

This course is designed specifically for those students interested in the application of HRM techniques and practices in a global context. It will focus on strategic issues related to the effective management of international HRM in the modern multi-national organization. The course will cover general HRM processes and systems but will focus on unique challenges faced by global companies as they acquire, develop, deploy and maintain human resources. *Pracequisite* BBM 201, ENG 101

Paralegal Advanced Competency Exam (PACE) Preparation

This course aids students in their preparation for the PACE examination developed and administered by the National Federation of Paralegal Associations (NFPA). J

LIT 361

The Art of Poetry

Shakespeare's Plays

Students will study the major forms of poetry through the works of selected poets They will examine various poetic techniques and devices as well as symbolism and meaning. The characteristics of various poetic schools will also be explored.

LIT 443

3aredits

Students will examine five major plays of William Shakespeare The plays will be viewed and discussed, especially in terms of their application to the present time. The discussions will focus on the characters in the plays and the conflicts that they faced.

LIT 451

TheNovel

3 credits

This course is designed to acquaint students with the history, theory, and structural aspects of the novel. Students will study the form of the novel, including theme, point of view, plot, and characterization.

MATHEMATICS

Mathematics Review

MAT 095

Ocredits

This course is designed to provide a review of basic mathematics skills for students who need to strengthen their background in mathematics before they take higher level courses. It provides a foundation for success in subsequent college level mathematics This is a lecture course which includes the following topics

- Order of operations
- Properties of numbers
- Fractions and decimals
- Ratio and proportion
- Percents
- · Graphs and charts
- Applications
- Exponents
- · Geometry: length, area and volume
- Other areas will be introduced as time permits

3 credits MAT 101 CollegeMathI

This course provides a review of algebra fundamentals, including linear equations and inequalities polynomials factoring rational expressions, integer exponents, and quadratic equations. The course will also cover linear; quadratic, polynomial, rational, and exponential functions as well as graphing techniques for these functions The elimination method for solving systems of linear equations will be discussed, followed by an overview of basic linear programming. The mathematics of finance will be introduced. Applications of mathematics will be stressed. Prerequisite Successfully passing math evaluation test or MAT 110

MAT 102

3 credits

MAT 201 Mathematics for Teachers I

This course is designed for pre-service teachers and provides an understanding of topics in mathematics which the student will be expected to teach. Course content includes set theory, numeration systems, selected topics in number theory, real numbers and their properties, problem solving techniques, and topics in algebra *Prerequisite*. Successfully passing math evaluation test or MAT 110

MAT 202

Mathematics for Teachers II

This course is designed for pre-service teachers and is a continuation of MAT 201. Course content includes probability, statistics, geometry, and concepts of measurement. Applications and problem solving will be stressed. *Prerequisite* MAT 201

MAT 205

History and Principles of Mathematics

This course provides an introduction to a broad range of areas in mathematics including set theory, properties of real numbers algebra, probability, statistics, and consumer math. Topics in algebra include solving linear and quadratic equations, graphing linear and quadratic equations, inequalities, solving systems of two linear equations in two unknowns, and applications Topics in probability include the definition of probability, odds, expectation, and the probability of compound events. The statistics portion of the course covers measures of central tendency, measures of dispersion, and the normal curve *Prerequisite* Successfully passing math evaluation test or MAT 110

MAT 301

Principles of Statistics I

This course introduces methods of summarizing data in the form of tables and graphs, measures of central tendency and dispersion, bivariate relationships (correlation and linear regression), elementary probability, discrete probability distributions, and continuous random variables Business applications are emphasized. *Prerequisite* MAT 102 or MAT 205

MAT 302

Principles of Statistics II

This course builds on the foundation laid in MAT 301. It introduces the student to testing hypotheses using the normal and student's "t" distributions, the chi-square test, analysis of variance, multiple regression and modeling and various non-parametric methods. Business applications are emphasized. *Prerequisite* MAT 301

3 credits MAT 304 Mathematics for Teachers III

This course is designed for pre-service teachers and is a continuation of MAT 201 and MAT 202. It covers selected topics in algebra (polynomials quadratic equations, and systems of linear equations), the rectangular coordinain ete dinain inaQ

MANAGEMENT INFORMATION SYSTEMS

MIS 320

Management Information Systems

This course is an overview of management information systems and their use to support business operations. Students are exposed to current information systems technology used in the business decision making process. Emphasis is placed on management control of information systems. Topics include information systems concepts and planning end-user computing hardware, software, including decision support systems, "Groupware," and database systems, networks, international, social, political, legal, behavioral, and ethical issues of MIS. *Prerequisite* BCS 206

MUSIC

MUS 101

Music Appreciation

This course increases the student's comprehension and perception of music. Each developmental period will be discussed (i.e. Middle Ages, Renaissance, Barcque, etc.) in terms of the historical background, social influences, characteristics, styles, composers, representative compositions, and performance media

Music in Contemporary Society

This course is an examination of music in contemporary society, including discussion of 19th century romanticism, progressive jazz, disco music, bluegrass country western, and folk ballads

NURSING

NUR 303

Nurse as Professional – 5 week Hybrid Course

This course provides a basis for role transition to the registered nurse as student and provides opportunity for exploration of the many dimensions of professional nursing The student considers the multiple roles of the nurse, the conceptual basis for nursing practice, and selected issues facing the profession of nursing The course includes an introduction to information literacy and writing skills. Class sessions and course assignments are designed to foster critical thinking skills

NUR 305 Exploration of Professional Nursing

This course provides a basis for role transition to the registered nurse as student and provides opportunity for exploration of the many dimensions of professional nursing The student considers the multiple roles of the nurse, the conceptual basis for nursing practice, and varied aspects of professionalism Classsessions and course assignments are designed to foster critical thinking skills *Prerequisite* Registered nurse

NUR 313 Nurse as Decision Maker – 5-week Hybrid Course

This course focuses on the application of ethical thinking to contemporary nursing practice. The major ethical schools of thought are examined, and the issue of ethical standards is addressed. The relationship of ethics to technology, legal issues economics, and persons with chronic illnesses or disabilities is explored. *Prerequisite* NUR 303

NUR 315 Ethics and Technology

This course focuses on the application of ethical thinking to contemporary nursing practice. The major ethical schools of thought are examined, and the issue of ethical standards is addressed. The relationship of ethics to technology, legal issues, and economics is explored. *Prerequisites* NUR 305 and 60 lower division credits

NUR 320

Disability and Chronic Care

This course emphasizes the professional nurse's role in health restoration and maintenance for individuals and families affected by disabilities and chronic conditions. The impact of chronic health problems on the individual, family, and community is explored. *Prerequisites* NUR 305 and 60 lower division credits

NUR 323

Nurse as Teacher - 5 week Hybrid Course

This course focuses on the development of teaching skills for professional nursing practice. The course will explore the role of the professional nurse in teaching dients who may be individuals families communities or peers *Prerequisite* NUR 303

PHI 310 Critical Thinking

This course is designed to help students develop their critical reading writing and thinking skills. They will learn how to think critically and apply this thinking to a wide range of topics, including politics, media, culture, and entertainment. Students will learn to respond in speaking and writing that exhibits structured critical thinking. *Prerequisite* ENG 102

PHI 321

Peace: An Alternative

This course introduces students to writers who advocate nonviolence as a viable technique for resolving conflict among individuals and nations. It also introduces students to eight methods of conflict resolution and five commonly used, but unsuccessful, techniques for resolving conflict. *Prerequisite* ENG 102

PSYCHOLOGY

PSY 101

Introduction to Psychology

This course offers an overview of the principles of human behavior: Developmental theories, psychophysiology, thinking learning personality theories, abnormal, and deviant psychology are introduced. Methods of assessment and research principles are discussed.

PSY 201

Child Growth and Development

This course provides a comprehensive study of human development from the prenatal period through adolescence. Areas that are studied include physical, social-emotional, and intellectual development. Major developmental theorists are reviewed. The interrelationship of heredity and environmental factors that influence change are also considered. Prerequisite/Co-requisite PSY 101 (except for K-6 and 6-8 education programs)

PSY 204

Life Span Development

This course is a survey of maturational and learned behaviors as they develop through all life phases. Human behavioral development is traced from prenatal stages through infancy, childhood, adolescence, adulthood, and later life. Physical, cognitive, and social development are considered, along with the development of language and personality. *Prerequisite* PSY 101

3 area lits

3 area lits

3 area lits

This course examines the social/cultural history of sports and its influence on our social institutions, such as politics, the economy, and government. Also highlighted will be issues such as race, gender, deviance and social problems, and youth socialization in relationship with sports

SPM 304

Current Issues in Sports Management

This course studies current issues, problems, and trends in sports management.

SPM 305

Sports Management I

This introduction to the sports industry covers theories of recreation and leisure, planning, policy-making, program evaluation, budgeting and public relations

SPM 306

Sport Media Relations

This course focuses on the application of media relations and communications in a sport organization. Students learn how to utilize the various broadcast, print, and electronic media and how they are vital to the success of the sport organization. Students will develop media brochures, media guides and publications, and news releases for an existing or special sport event organized by the dass

3 credits SPM 405 Sports Management II

This course gives students a comprehensive view of the procedures and operation of professional sports, collegiate athletics, and recreational organizations and enterprises. The course examines skills and processes such as budgeting marketing event staging and fundraising that are necessary for the successful administration of these organizations. The interrelationship between these skills and administrative goals and objectives is studied. *Prerequisite* SPM 305

SPM 406

Sport Facilities Management and Planning

This course focuses on the principles and practices of operating athletic centers and recreational facilities. Emphasis is on the management of such facilities, in addition to transportation, security, time management, and other related issues

SPM 407

Sports Marketing and Promotions

This course is designed to give students an understanding of the marketing process relative to the sports industry. Specific topics include developing a marketing strategy, promotion, sponsorship, sales, advertising and licensing

SPM 408

Financing Sport Operations

This class discusses the financial concepts and theories and their application in the professional, intercollegiate, and commercial sport industries Specific topics include revenues and expenses of professional, intercollegiate, and private sport industries, budgeting the economic impact of the sports industry, and fundraising

SPM 490

Sports Management Intenship I

Data Structures and Algorithms

This course focuses on understanding the dependence of execution time, bandwidth, and memory requirements on the data structures and algorithms chosen. Students learn to reason informally about algorithm and data structure correctness and complexity. Primary emphasis is given to intelligent selection of algorithms and representations. Programming assignments use C++ and the Standard Template Library. Topics include: abstract data types data structures and invariants, simple algorithm analysis, sorting and searching trees and graphs, associative data structures, and C++ programming with the STL. *Prerequisite* SSD 290

SSD 391

System Level Programming

3 credits

3aredits

This course provides students with a user-level view of processors networks and operating systems. Students learn explicitly about assemblers and assembly code, program performance measurement and optimization, memory organization and hierarchies, network protocols and operation, and concurrency. Programming assignments use the C programming language. Topics covered include: overview of instruction sets and assembly language programming memory management; memory hierarchies cache, memory, and virtual memory; performance measurement and tuning; basic Internet protocols; and basic concurrent programming. *Preequisites* SSD 191 and SSD 390

SSD 392

Database Systems

This course introduces students to database concepts, including database design. Relational data models are emphasized. Students develop dient-server applications in Java and/or Visual Basic, using commercial database management systems. Example applications include e commerce systems. Topics covered include relational data models and data independence, relational query languages, database design; dient-server applications, performance issues, distributed, object-oriented, and multimedia databases Prerequisite SSD 290 Networks and Distributed Computing

This course focuses on principles and practices of network-based computing. It begins with an overview of networking technology in support of data and multimedia communication. It continues with application-oriented protocols and approaches to distributed object-oriented programming using Java Topics include: survey of networking protocols and technology; multimedianetworking data distribution; multicast and push-pull techniques; dient/server design, thick and thin dients; CORBA and related tools; WWW implementation issues; electronic mail; security and privacy issues *Prerequisite* SSD 392

SSD 491

3 credits

Software Specification, Testing, and Maintenance

This course focuses on the principles of development of software systems following software engineering practices. Students work in multi-person teams on Internet-based software projects of significant scale. Topics covered include: life cycle models, requirements analysis, design, inspection, testing documentation, configuration control, application generators, and CASE tools. *Prerequisites* SSD 291 and SSD 392

SSD 492

3 credits

Software Project Organization and Management

Thiscoursefocuses on the organizational and management aspects of software projects Students learn techniques of project planning scheduling costing and organization, and apply them in the context of amulti-person project. A key emphasis is management of dient issues Topics include project management techniques scheduling budgeting risk analysis basic project management tools leadership principles dient relationships liability issues intellectual property issues and confidentiality issues *Praequisite* SSD 491

TECHNOLOGY

TEC 101 Introduction to Audio 3 credits

3 credits

TEC 366 PhotojournalismI

This course is centered on visual storytelling as applied in print media. Students will learn to combine journalism and photography in order to best tell a story using images. They will photograph typical assignments such as general news, sports, and feature photography.
