**COURSE DESCRIPTION**

This course, which focuses on health care professionals, provides essential points of grammar and vocabulary for students whose profession requires a working knowledge of Spanish. The course is designed to help students better communicate with Spanish-speaking people with whom they interact in their work in the health care profession.

**COURSE OBJECTIVES**

This course will provide students with the knowledge and skills to:

1. Construct Spanish phrases and sentences needed to communicate effectively in situations involving health care issues, including the ability to speak and write simple everyday Spanish with enough pronunciation and structural accuracy to communicate reasonably in health care environments.
2. Develop sufficient knowledge of the basic structure of the Spanish language to proceed with self-study at the conclusion of the course.
3. Practice critical thinking and communication skills in all class activities.
